

ARE YOU OR A TEENAGER YOU KNOW:

- ♦ **Easily distracted?**
- ♦ **Make careless mistakes in schoolwork or other activities?**
- ♦ **Often forgetful in daily activities?**
- ♦ **Have difficulty paying attention?**
- ♦ **Often fidgety or squirm in your seat?**
- ♦ **Interrupt others and have difficulty waiting your turn?**
- ♦ **Using drugs or alcohol?**

Crittenton Blue Springs Clinic offers a comprehensive evaluation and payment for time and travel to teenagers age 13 to 18 for participating in a *medication study* for attention-deficit hyperactivity disorder and substance abuse problems. In addition to medication, teenagers will also receive substance use disorders treatment at no cost.

If you or someone you know would be interested in more information about this no cost treatment and paid study participation, please call (816) 309 - 8137
