

SAINT LUKE'S COLLEGE

Bachelor of Science in Nursing

General Education Course Requirements

Saint Luke's College offers a Bachelor of Science degree in Nursing. The first 64 credit hours of general education are completed at the regionally accredited school of your choice.

Once you have completed the general education requirements, and are accepted into the program, you will complete 60 hours of nursing courses to earn your bachelor's degree. All 64 hours of general education requirements must be completed prior to enrollment in Saint Luke's College.
